COASTAL RIVIERA MAYA

We begin at the marina in Puerto Aventuras with a cocktail and some photos as guests board the boat. Once everyone is on board, our crew will quickly prepare to head out.

As we head out of the beautiful marina into the Caribbean, we prep the fishing lines and get those in the water so that we can troll for game fish our whole way north to this beautiful, secluded reef.

At this point, the gang will be enjoying cocktails, plugging in their own music into our 6,000watt system, picking their favorite karaoke songs with lyrics to be played on our HD TVs (indoors and out), or just relaxing on one of the many decks and enjoying the sun.

When we get to the reef, we'll drop anchor and give a quick safety demonstration with the snorkeling gear. Then everyone can get into the water!

We also have a second level high-dive for jumping from the top into the turquoise waters below.

If guests decide to snorkel, everyone can see an endless amount of beautiful reef fish and often some sea turtles swimming around!

After a good amount of time at the reef, when everyone's back aboard we'll pull up anchor and start heading south past the marina we came from while fishing again for another 55 minutes.

We then pull into a private canal for the architectural tour, which also happens to be time to eat. As we slowly motor by boats and beautiful homes in this canal your guests will enjoy a full Mexican cuisine style lunch on the bow of the boat.

After this, we pull back out into the sea for a short final cruise into the marina where we'll dock.

During all of this our boat becomes your home!

Guests may use the boat as if it were their own. We have full staff to make sure drinks are never empty and to set up any songs anyone would like to hear, and maybe to even encourage a bit of karaoke!
